SKILLS

- **Languages:** C++, Python, JavaScript, MongoDB, PostgreSQL, HTML, CSS, React.js, Redux.js, Node.js, Express.js, FastAPI, Linux.
- **Technologies & Tools:** Bootstrap, OpenCV, YOLOv8, SEO, Figma, Git/GitHub, Visual Studio Code, Photoshop, AWS, WordPress, Video Editing, Graphics Design, UI/UX.
- **Course Work:** Object Oriented Programming, Data Structure & Algorithm, Operating System, Software Project Management, Data Base Management System, Software Engineering.

WORK EXPERIENCE

- ❖ **Software Developer Intern**
TechWizer India Pvt. Ltd.

April 2025 - Present
Lucknow, UP, IN

 - Leading the development of an AI-based Car Number Plate Recognition and Counting System as a Software Developer Intern. Implementing real-time vehicle detection using HTML, CSS, JavaScript, ReactJs, NodeJs, Python, OpenCV, and deep learning models for accurate analytics. Integrating MongoDB for backend data storage and utilizing Docker to ensure secure, scalable deployment environments.
- ❖ **Samsung Innovation Campus Hackathon**
University of Lucknow

Sep 2024 - Sep 2024
Lucknow, UP, IN

 - Led a team of 4 to develop a chat support website with efficiency of 60% enabling direct communication between citizens and the government and managed the frontend development using modern web technologies, ensuring a user-friendly interface and seamless interaction.
- ❖ **Cyber Security and Ethical Hacking Trainee**
Let's Upgrade Edu. Corp.

Aug 2024 - Aug 2024
Remote

 - I had the opportunity to dive deep into the fascinating world of cybersecurity, learning essential skills and techniques to protect against cyber threats.
- ❖ **Frontend Developer Intern**
InternPe

June 2024 - July 2024
Remote

 - I had completed three structured tasks in web development, applying knowledge in HTML, CSS, JavaScript, and React.js to build responsive and interactive webpages, enhanced user experience by implementing responsive designs, ensuring 100% functionality across mobile and desktop.
- ❖ **Full-Stack Development Apprenticeship**
Udemy

Jan 2024 - July 2024
Remote

 - I've honed my skills in front-end and back-end development. This course has been instrumental in expanding my knowledge and enhancing my ability by 80% to create dynamic, responsive, and scalable web applications.

PROJECTS

- ❖ **AI-Virtual Dressing System**

- Built an interactive and responsive web application for a seamless virtual dressing experience using OpenCV, YOLOv8 and deep learning models for accurate analytics. Utilized deep learning and computer vision to detect human pose in real-time and showing garments in web page.
- ❖ **AI-Chat Support System**

- Built a chat support website using HTML, CSS, JavaScript, React.js, and Chatbase.io, enabling communication between user and AI chatbot using Chatbase.io. Integrated Chatbase.io to handle user queries and provide dynamic AI-Generated responses by accuracy of 90%.
- ❖ **Home Rental Management System**

- Built a user-friendly web application for home rental management system using JavaScript, ReactJS, HTML, and CSS. Integrated real-time database capabilities, which improved data synchronization and user satisfaction ratings by more than 30%.
- ❖ **Portfolio**

- Built a responsive website of portfolio using HTML, CSS, JavaScript and React.js.

- ## EDUCATION
- ❖ **Bachelor of Technology in Computer Science & Engineering**, University of Lucknow, Lucknow.

2021 - Present

❖ **Intermediate**, Maa Durga Ji Senior Secondary Vidyalaya, Jaunpur.

2019
69.8%

❖ **High School**, St. Xavier's High School, Jaunpur.

2017
9 CGPA
